Fire Levels Home Near Franklin Square

The one-floor dwelling of the Paul Little Jr. family on the Leetonia - Franklin Square Road was destroyed by fire shortly before 3 a. m. today. No one was injured.

The Salem News photo above shows the still-smoldering ruins of the residence which was just east of Franklin Square. According to neighbors, Mr. Little was away at work when the fire was discovered by Mrs.

Little, Paula Little, 14, eldest of three youngsters, ran to a neighbor's house and called the Leetonia Volunteer Fire Department. Leetonia Fire Chief Eldon Holt said the home was in ruins

by the time the firemen arrived on the scene. Only cement blocks of the construction remained. Cause of the blaze was undetermined and no estimate of the loss was given.

Salem Girl Scout Leaders Oppose Mass Merger Plan

By VIRGINIA HURRAY
Mrs. Jon Zeigler of 894 N. Lincoln Ave. and Mrs. Anil Cosma of 2234 Southeast Blvd. appeared before a Salem News reporter's desk the other day bearing identical expressions on their faces of personal and patriotic indignation.

Personal because the character of the Girl Scouts organization for which the women have great affection threatens to be changed. Patriotic because in their judgment coercion is being used to bring about the change with a spirit they consider contrary to basic American principle.

18 Years In Scouting
Mrs. Zeigler and Mrs. Cosma have been local volunteer Girl Scout workers for a combined total of 18 years, and therefore their devotion to Scouting is evident. But now they are alarmed about a national movement that would have the 800 Girl Scouts and 300-and-some adult volunteers here engulfed in a mass merger with thousands of Girl Scouts and adults in three counties — with Youngstown stipulated as the cultural center.

Gangland-Type Bombing Kills Cavallaro, Son

Blast Was 82nd In City's Vicinity In Last 10 Years

YOUNGSTOWN, Ohio (AP) — FBI agents and state criminal investigators were heading for Youngstown today, brought by the gangland-style bombing that killed 60-year-old Charles (Cadillac Charlie) Cavallaro and his 11-year-old son, Thomas.

Another son, Charles Jr., 12, was injured seriously.

Gov. Michael V. DiSalle indicated state authorities are interested in other things beyond the solution of Friday's bombing—the 82nd in the Youngstown area in a little more than 10 years. The bombings, said DiSalle, are just "a symbol of a condition that has existed too long in the Youngstown area . . . a condition that should not be permitted to continue."

He said Youngstown Mayor Harry Savasten had asked state assistance in halting the long series of unsolved bombings and gangland-style killings. The mayor promised complete cooperation of local authorities, the governor said.

DiSalle ordered fire marshal's investigators and a team from the Bureau of Criminal Investigation and Identification to Youngstown.

Earlier, Police Chief William R. Golden sent a telegram to U.S. Atty. Gen. Robert Kennedy asking federal aid in the case.

The Justice Department in Washington said "the full laboratory and identification facilities of the FBI are being made available to assist local officials." The department spokesman added that "federal" agencies are carrying out investigations of racketeering in the area and will continue to make every effort to help local authorities and the citizens of Youngstown stamp out

Brian Named Chairman of 'Dimes' Drive

County Recorder Richard G. Brian of East Liverpool will serve as Columbiana County campaign director for the 1963 March of Dimes, it was announced today by Burr Gibson, director of fund raising for the National Foundation on — March of Dimes.

Brian will organize and coordinate the efforts of hundreds of volunteers Jan. 2 - 31, in the 25th Anniversary March of Dimes appeal to "Give for the Life of a Child" disabled by birth defects, arthritis or polio.

Brian declared that more than 250,000 American babies are born each year with significant birth defects, and that thousands of youngsters are being denied a normal childhood because of arthritis.

March of Dimes contributions support a wide-ranging research program to find causes and preventives for these tragic cripples, he said.

The March of Dimes also is establishing special treatment centers to provide expert medical care in their home communities for children with birth defects, arthritis and polio.

More than 50 of these centers have been set up in affiliation with approximately half of the nation's medical schools.

E. Allen McKeever of East Liverpool is chairman for the Columbiana County Chapter of the National Foundation.

India Asks Reds To Clarify Truce

Both Sides Honor Cease-Fire Pact

NEW DELHI, India (AP)—India has asked Red China to clarify several points of its offer to settle the undeclared Himalayan border war, the Foreign Ministry said today.

A spokesman said Foreign Secretary M. J. Desai summoned the Chinese charge d'affaires in New Delhi Friday and "put to him several points about China's cease-fire proposal which required clarification." He said the Chinese diplomat is "obtaining clarification from Peking."

The Foreign Ministry spokesman declined to say what the points were.

Red China ordered its troops in the disputed border areas to cease-fire last Wednesday. It promised to pull its troops back on Dec. 1 to a point 12½ miles behind what it described as the line of actual control.

The Indian spokesman said the Chinese proposals are still under consideration, although Prime Minister Nehru has indicated he would not accept the Chinese terms. By acceptance, the Indians would have to give up claim to 12,000 square miles of disputed territory in Ladakh on India's northwestern border with China.

Nehru has indicated he believes the border fighting will erupt again and that he wants Chinese troops off what he considers Indian soil.

The Indians were believed taking advantage of the Chinese cease-fire to bolster their military strength.

U.S. and British military aid missions here continued their appraisals of India's long-range military needs.

Nehru again predicted a long struggle with Red China as the Himalayan fronts remained quiet for the third day under the cease-fire.

In a message addressed to a youth rally Friday, Nehru warned his nation of "a long struggle and a difficult one, and we must not imagine that the struggle will be over soon because of various diplomatic moves."

Canfield Man Dies In Car-Truck Crash

Harry L. Faucett, Sr., 72, a Canfield insurance salesman en route to make a business call, was killed at 9:30 p.m. Friday when the car he was driving was struck by another vehicle at the Routes 14 and 170 intersection two miles north of East Palestine. State highway patrolmen said the victim, going north on Route 170, drove onto the main highway into the path of a tractor-trailer driven by Homer Allen Kimble, 39, of Canton, traveling east on Route 14.

The impact pushed the car up the road a short distance before going through a guard rail where the truck overturned partially on top of the smaller car, the Lisbon Patrol post reported.

The victim was partly decapitated and also suffered a crushed chest and internal injuries. After the body was finally extricated

330 Dead As Holiday Death Toll Increases

By The Associated Press

Traffic	256
Fires	31

Total	330

Death on the nation's highways continued to mount today as the 102-hour Thanksgiving holiday entered its third day.

Traffic accidents involving more than one fatality increased the death toll.

There were no National Safety Council estimates for the holiday, which ends at midnight Sunday. A council spokesman said traffic is not as heavy on Thanksgiving as other holiday periods, although he said 480 persons would normally die in traffic accidents during a Thursday to Sunday span.

An Associated Press survey of accidental deaths for the 102-hour period from 6 p.m. Wednesday, Nov. 7, to midnight Sunday, Nov. 11, showed 458 highway fatalities. The survey also showed 30 killed in fires and 113 deaths in miscellaneous deaths, an overall total of 602.

Last year 457 persons died on the highways during the Thanksgiving holiday. Fires claimed 40 lives and 105 persons died in miscellaneous accidents for a total of 602.

Two separate accidents in Texas killed five persons. Four University of Omaha students were killed when their car smashed into a Union Pacific freight train near Omaha.

In Howardsville, Mo., five persons, including four children, were killed in a fire. In Chicago, two infant brothers and the woman caring for them died when their apartment burned.

from the wreckage, Mr. Faucett was pronounced dead at Salem City Hospital.

Kimble, who was driving the truck loaded with paper, was not injured.

Kennedy Plans Trip To U.S. Military Bases

HYANNIS PORT, Mass. (AP)—President Kennedy is planning a swift one-day trip Monday to military bases in Georgia and Florida, including the command post for the Cuba crisis alert the temporary White House announced here today.

The temporary White House said that the President will fly to Hunter Air Force Base outside Savannah, Ga., visit nearby Ft. Stewart, go on to Homestead Air Force Base south of Miami, Fla., and then to military installations around Key West, Fla.

At Homestead, Kennedy will inspect the war room — the command post for the entire Cuban operation.

Kennedy plans to end his weekend on Cape Cod and return to Washington late Sunday.

Andrew T. Hatcher, assistant White House press secretary, said that many of the units alerted during the Cuban crisis now will be going home and Kennedy wants to pay a personal call on the officers and men before they leave.

The chief executive will be accompanied by Gen. Maxwell D. Taylor, chairman of the Joint Chiefs of Staff, and by chiefs of the Army, Navy, Air Force and Marines.

JFK, Macmillan To Hold Confab

Leaders To Discuss World Situation

WASHINGTON (AP)—President Kennedy and British Prime Minister Harold Macmillan are expected to meet soon for a wide-ranging review of world affairs in a time of change.

Western strategists still are unsure of what lies beyond what Kennedy has termed a possibly "important turning point" in East-West relations. But they are agreed on the need to have the United States and Great Britain chart their course together.

Britain and the United States are both involved in major unresolved issues on the international scene—the India-China dispute, Berlin, disarmament and the Congo.

Both American and British sources agreed Friday on the likelihood of a Kennedy-Macmillan meeting in the near future, but said an exact time and place has not yet been worked out. London informants said, Macmillan expects to cross the Atlantic shortly after Christmas.

At Hyannis Port, Mass., where Kennedy is spending a long Thanksgiving weekend, assistant presidential press secretary Andrew Hatcher would say only that "it is highly probable" that the two leaders will get together "some time soon."

Meetings between the American and British government heads are comparatively frequent. Kennedy and Macmillan have gotten together five times since Kennedy took office last year, the latest occasion being a visit by Macmillan to Washington last April.

The Washington consensus is that the President and the prime

Plane Crash Leaves 17 Dead; Experts Puzzled

ELLCOTT CITY, Md. (AP)—The unaccountable crash of a United Air Lines Viscount puzzled experts today as they investigated the tangled wreckage in which 17 persons died.

All aboard perished in the crash and fire Friday of Flight 297, en route from Newark, N.J., to Atlanta, Ga., via Washington, D.C.

The Civil Aeronautics Board, Federal Aviation Agency, United and Airline Pilots Association representatives met today to organize their investigation.

The crash of the four-engine turbo-prop airliner occurred in bright sunshine about 10 miles southwest of Baltimore. Ed Slatery of the CAB said, "We are concerned because there was no weather connected with the crash."

Another piece in the puzzle was the report from the FAA that the Viscount's veteran pilot, Capt.

U.S. Expected To Reject Red Plan on Cuba

UNITED NATIONS, N.Y. (AP)—U.N. diplomatic sources believe the United States will reject several parts of a Soviet-Cuban plan to settle the Cuban crisis that includes lifting of the U.S. quarantine of Cuba.

The 14-point proposal submitted to the United States embodied original or modified demands Cuban Prime Minister Fidel Castro made before the Soviet Union pulled its missiles out of Cuba.

Castro's original insistence on U.S. withdrawal from the naval base at Guantanamo was toned down to a suggestion that the United States and Cuba begin negotiations on the future of the base.

Another point called on the United States to stop interfering in the domestic affairs of Cuba. Castro originally demanded a cessation of subversive activities allegedly directed from the United States and violations of Cuban air space and waters.

President Kennedy said Tuesday the United States would not "abandon the political, economic and other efforts of this hemisphere to halt subversion from

The FAA said radio communications with the plane as it prepared to land at Washington shortly after noon Friday were entirely routine. The FAA said Balog had acknowledged instruc-

2 Ohio Girls Aboard Ill-Fated Airplane

YOUNGSTOWN, Ohio (AP) — Two girls killed in the crash of a United Air Lines Viscount plane near Ellicott City, Md., had Ohio connections.

Miss Margaret P. McCutcheon, 21, was the daughter of David McCutcheon, chief pilot for Youngstown Sheet & Tube Co. She was a United Airlines stewardess but was not working on Friday's flight.

Miss Barbara Lawrence, 15, was the daughter of the former mayor of East Liverpool, Fred Lawrence.

Lawrence, now of Princeton, N. J., was mayor of the Ohio city in 1958-59. The girl's uncle is W. A. Harris Jr., president of the Edwin M. Knowles China Co. Miss Lawrence was flying to Atlanta to visit a friend.

tions only three minutes before the Viscount, capable of carrying 44 passengers, disappeared from the radar scope monitoring its approach.

Witnesses said the plane suddenly nosed sharply into wooded farmland owned by Clark Gaither in Howard County. The descent of the airplane was so steep that it cut only a small swath through the hardwood forest.

"The plane looked like it was in trouble when I first saw it," said Gaither. "Wings were fluttering and the body quivered."

"Then, just as if someone had turned it, the nose headed straight down for the woods and the airliner hit with a tremendous ex-

Promoted In 1946
Council coverage, which now means a plan to consolidate existing G.S. councils, was originally promoted in 1946 as a plan to increase council jurisdiction, and in that light the plan was widely applauded and accepted, say the women.

They point out that the words "merger" and "consolidation" did not make an appearance until two years ago, when the Girl Scout National Council convened in St. Louis in November, 1960.

As matters now stand, the Salem Girl Scout council may not be the autonomous unit it now is, by the end of next year!

And apparently there's nothing the Salem women can do about the matter except what they're doing, letting the town know about it.

Headquarters Silent
National Girl Scout headquarters in New York City has been "strangely silent" in reporting the portion of councils which are currently opposing the merger plan, declare members of the Salem Girl Scout board, who have been studying council coverage especially carefully more than a year now.

Delegates at the convention two years ago exchanged points of view, and developed an unofficial system of communication in the months which followed, with leaders of Girl Scout councils opposed to losing their autonomy passing on to one another names of leaders in other cities who feel the same way. In this manner, the Salem volunteer G. S. workers have heard of an estimated 132 councils throughout the land who are against the mass merger plan.

After considerable deliberation the local board decided to oppose council coverage in its present form. The Salem Girl Scout leaders here were told that they are in a minority in their dissent.

Opposed By Congressmen
Meanwhile, here and there across the nation some hint of the controversy in the Girl Scout organization is reaching light of publication. At least one congressman, the Honorable James B. Utt of California, has taken the matter to the floor of the House of Representatives. As written in the Congressional Record of Aug. 13, Congressman Utt said:

"I think this movement is dangerous and should be resisted by the local councils of the Girl Scouts of America."

The East Liverpool Girl Scouts Council this year pulled out of the whole plan, and the Scouts reorganized as Camp Fire Girls. The same thing happened in Weirton, W. Va.

The national Girl Scout organization last summer handed down a resolution upon which the Salem group was to act. This res-

Prizes for 500 were awarded to Mrs. Russell Reynolds and Mrs. Ernest Reisinger.

The next club meeting will be Dec. 5 when plans are to "dine out" and see a show in Youngstown.

Past Councilors Club met Wednesday at the D. of A. lodge, with Mrs. Nannie Meehan, Mrs. Anna Rueff and Mrs. Lydia Bennett as hostesses.

Prizes for 500 and games were given to Mrs. Virginia Williams, Mrs. Florence Stacey, Mrs. Lela Stock and Mrs. Eleanor Hood. A special prize was won by Mrs. Margaret Brunner.

The hostesses for the meeting Dec. 5 will be Mrs. Ollie Carnes, Mrs. Florence Babb and Mrs. Brunner.

EAGLES AUXILIARY will hold its regular meeting Tuesday evening at the F.O.E. home at 8 p.m.

All members are urged to attend to make plans for the annual Christmas party.

Thanksgiving day guests of Atty. and Mrs. George Lafferty of E. Lincoln Way were her sister, Mr. and Mrs. Howard Schaeffer of Salem, niece, Mr. and Mrs. Keith Gayer of Columbus, Atty. and Mrs. Donald Lewis of E. Lincoln Way and Larry Lafferty of Western Michigan University at Kalamazoo, where he is studying for his master's degree in library science.

Mrs. Leona Caldwell of W. Lincoln Way visited Thanksgiving day with the Rev. and Mrs. Tom Hammetton and family of East Palestine. Rev. Hammetton is recovering from eye surgery he underwent recently at the South Side Hospital.

Mr. and Mrs. Vance Brinker of W. Lincoln Way entertained 25 relatives and friends for Thanksgiving dinner. Those present were Mr. and Mrs. Earl Richardson of Liverpool road, Mr. and Mrs. Clyde Hadley of Guilford Lake, Mr. and Mrs. Lowell Starkey of Cleveland, Mr. and Mrs. Tom Richardson of Columbiana, Mr. and Mrs. Ray Hum of Canfield and Atty. and Mrs. Joe Barozzi of Lisbon.

Mrs. Ross Carnes of N. Beaver St. had her children and grandchildren Mr. and Mrs. Philli p Carnes of Liverpool Road and Mr. and Mrs. Norman Delaney and children of East Liverpool as holiday guests.

Assistant Pastor To Be Installed

Members of the congregation of the First United Presbyterian Church will gather at 7:30 p.m. Sunday in the church sanctuary for the service of installation for Dr. J. Paul Graham, new assistant minister of the church.

Rev. Ralph Thompson, pastor of the Presbyterian Church of Kinsman, will preside at the ceremony which will be followed by a reception in Fellowship Hall sponsored by the Women's Association of the church.

Dr. and Mrs. Graham are to be presented to the congregation at the morning worship services at which Dr. Graham will participate.

VICTORY MARGIN NARROWED

ZANESVILLE, Ohio (AP)—Don L. Dilts' margin of victory has been cut from 60 votes to 43 but he remains Muskingum County auditor-elect.

Democratic incumbent Genius T. Payne apparently lost the Nov. 6 election to Dilts, 13,517-13,457. Monday Payne filed for a recount in 32 of the county's 149 polling places. Election officials announced today the recount is complete and the vote total now is 13,512-13,469.

ADMIRERS . . . Fellows at M.I.T. find 15-year-old Susan Reid Hemley pretty sharp addition to the Class.

Susan Hemley Breezes Through Junior, Senior High School Girl, 15, Is Pet Coed At MIT

CAMBRIDGE, Mass. (AP) — At 15, Susan Reid Hemley is the youngest girl ever enrolled at Massachusetts Institute of Technology, one of the world's great scientific and engineering centers.

More than 97 per cent of the 6,600 students at M.I.T. are men from all parts of the world. Women have been going to the famed school for generations, but not many at one time, and certainly

not at 15. There are only 170 women students this year, and half of them are in graduate classes.

Medicine In Family

Susan will concentrate on life sciences at M.I.T. Her ultimate aim is to be a doctor. That's in the Hemley family tradition — with a dentist father, a nurse mother, a radiologist brother, an orthodontist uncle, and a sister trained in psychiatry for social work.

How did Susan qualify for college so young?

"It's like this," she explains thoughtfully. "I am really the product of the environment they provided for me. They enriched it, geared it to the intellectual, and I feel it was bound to rub off on me."

"I like to know something about just about everything." She plays the piano and loves to read.

In the Forest Hills, N.Y., school setup, a qualified junior high school student can cover three years in two. "So I gained a year that way," Susan says.

While in high school, Susan took private school courses during the summer. When she began her junior year, it turned out that at the conclusion she would be only two courses short of graduation requirements.

"So I asked the principal if I could add one course for each semester, one in history and one in English, and she agreed," she says. "So here I am."

Goes at Own Pace

"I don't find I have any particular problems," Susan emphasizes. "And I think that's because I've been allowed to go at my own pace. No one has been pushing me."

As for her classmates, Susan thinks her boy colleagues are pretty smart and she isn't aware of any isolation. In the women's dormitories, she is accepted as just another student.

The women at M.I.T. enjoy special living quarters, with tutors—a married couple—presiding over each dormitory.

Susan feels no sense of strangeness in being in a school predominately populated by men. Her choice of studying medicine included recognizing in advance that she was entering a field of study in which women are heavily outnumbered.

Biochemistry Fascinating

Will she ultimately marry? Susan isn't ready to commit herself. Her M.I.T. friends say "she has a good head on her shoulders," and her balanced outlook toward the future is shown in her words. "Any girl thinks of marriage as something that may be in her future and will require a future decision."

But at the present, Susan explains, she looks forward to medical research.

"I especially am interested in the molecular side, the atomic side," she says. "Biochemistry is fascinating and I may get into nerves — the molecular angle."

T. D. Myers Wins 1st Prize In Knox Twp. Antique Show

A clock that dates back to pre-War of 1812 days won top prize for T. D. Myers at the Knox Township Senior Citizens hobby and antique show this week at the North Georgetown Lutheran Church.

President of the Senior Citizens group, Myers exhibited a clock that is more than 150 years old.

Mrs. Olive Gohley of RD 5, Alliance, copped first prize for the largest miscellaneous collection, which included quilts, tablecloths and bedspreads and featured a yoyo spread with 4,200 patches smaller than a dime. The spread was made by Mrs. Rena Bell Stroup of Homeworth and took three years to complete.

Fifteen prizes were given 15 divisions including embroidered pillow cases, knitting, and crocheted stuffed animals.

Judges for the event, attended by 175, were Mrs. Frank Ruth of Alliance, Mrs. Elmer Cover and

Mrs. Ruth Rardon of Homeworth and Mrs. Chester Dibble of RD. Alliance.

Other items in the display included Revolutionary War period guns, cane chairs, picnic baskets and stool owned by Jessie Galbreath of RD, Beloit and rugs, afghans and paintings by Mrs. B. Johnson of Homeworth.

The Columbiana Cultivators Farm Bureau Council met at the home of Mr. and Mrs. Wilfred Hoopes. It was voted to send a contribution to CROP and the Columbiana County Mental Health Clinic fund. A film, "Agriculture U.S.A.," was shown.

Lunch was served by the hostess. The January meeting will be held at the home of Mr. and Mrs. Don Clark.

Mr. and Mrs. Lee Whinery are the parents of a son born at Alliance Hospital Nov. 18. He has been named Lee Allen.

Mr. and Mrs. Rolland Striffeler attended family dinner at the home of his sister, Mr. and Mrs. Virgil Sanor. The event honored his parents, who later left for the winter in Florida. Other guests were Mr. and Mrs. Russell Bower.

The new son born to Mr. and Mrs. Larry Iler at Alliance Hospital has been named Leslie Earl.

True Followers Class of Bethel Church met at the Church Sunday night with Mr. and Mrs. Russell Kurena as host and hostess. It was decided to serve the Knox Senior Citizens a Christmas dinner as a project. Games were in charge of Mr. and Mrs. Don McDaniel.

Deanne Gerber has resumed her studies at Kent State after a week's illness at Salem City hospital.

Mr. and Mrs. Robert Kekel are the parents of a son born Nov. 16 at the Salem Clinic. He has been named Gregory Lee.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

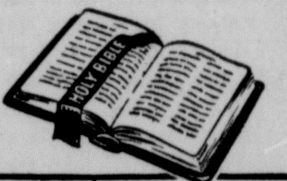

Time was when it took a month for a letter to get from one city to another, and such things as radio and television were unheard of.

Now we don't think in terms of miles — we think in terms of the time it takes to span them, and it doesn't take long to get around the world.

As for communications — well, they're instantaneous, these days.

But for all of that, we seem to find it just as hard to understand one another as we ever did.

Only one form of communication hasn't changed . . . God's method of communication. He speaks to you through His Church, and through a Bible that has survived the centuries. Go to church this Sunday, every Sunday, and hear His message for yourself.

PICKED BY JFK — Christian A. Herter, above, 67, former Republican secretary of state, has been chosen by President Kennedy to be top man for the U.S. in the new foreign trade negotiating program.

Not Quite the Way We Thought

Enough ground is covered in Emmett John Hughes' Look Magazine recollections of the Eisenhower administration, as he was privileged to view it from a speech-writing post, to make single episodes seem unimportant.

Thus, the emphasis that will be given his remarks about the diffident relationship between Vice President Nixon and his chief from 1952 through 1960 will be due to Mr. Nixon's recent activities more than to the intrinsic newsworthiness of the writer's remarks about the two men.

One over-all observation about Mr. Hughes' material might be the vast difference in revealing between projection and practice in organizing a new administration.

HIS ACCOUNT of the stresses and strains that grew out of a new chief executive's efforts to coordinate disparate personalities in a new cabinet—men he had not known before—is not quite the way most of us thought administrations were organized.

It was our idea that a new president chose his cabinet on a basis of personal preference. But in fact Mr. Eisenhower had not

known John Foster Dulles, his secretary of state.

He had not known George M. Humphrey, his secretary of treasury, or Charles E. Wilson, secretary of defense, though these three men were to become the trademarks of his administration.

All three, as it turned out, were to be so dominant in their own right as individuals that their views overshadowed the less well-defined views of the new chief executive.

THIS IS a thought-provoking revelation.

President Kennedy, it is recalled, had no previous acquaintanceship with Robert S. McNamara, his secretary of defense, and only slight knowledge of his other cabinet officers.

This makes it easier to understand why the availability of a trusted brother—Milton S. Eisenhower in one instance, Robert F. Kennedy in the other—is a boon of great value to a new president.

The people elect the chief executive on Election Day. But political party leaders choose the department heads between Election Day and Inauguration Day. They set the tone of each new administration.

Civil Defense Cools Off

Now that the crisis is past in the Cuban situation, most of us probably will settle back in our favorite, comfortable chair with the typical comment: "We knew nothing would happen."

But, were we that certain? Fact is, probably most of us were quite concerned over the prospect of enemy missiles in Cuba being pointed in our direction. There was considerable talk about civil defense several weeks ago and this newspaper pointed out at that time that not a single marked air raid shelter existed in Salem.

That situation hasn't changed. There's still no public haven of escape, but don't blame our dedicated CD officials. They have tried for the past year or more to get permission from owners of private buildings and trustees of public buildings

to permit use of the structures as shelters, if and when needed. No one wanted to be bothered, apparently.

We should all remind ourselves that long-range missiles undoubtedly are aimed potentially our way from Soviet soil, although the known bases in Cuba are dismantled. Russia's large missile-equipped submarine fleet is reported by the U.S. Defense Department to be continually at sea.

This threat in itself ought to jar us from our apathy and procrastination, but we doubt that 10 people would show up if a civil defense meeting of general interest were held tomorrow.

If there's any blame for apathy over civil defense, it must be laid at the feet of the people who would stand to benefit.

Military Scale Brain-Washing

It was of no importance one way or the other what the government of India decided to do about Red China's cease-fire offer.

The impact of the offer on Indian troops was the thing that mattered.

Foefully equipped, badly situated, demoralized by years of betrayal under the bad leadership of a defense minister who couldn't have been much more hurtful to them if he had been working for Peiping instead of New Delhi, India's fighting men are in no mood to be cut up in a hopeless border action.

The possibility held out to them in the Chinese cease-fire offer that the action could be suspended by a political decision

The True Meaning

Myriad lights glow brightly in the downtown Salem business district and decorated trees at City Hall and the Village Green add a festive touch to herald joyous holiday season that is about to begin. Shoppers are starting their search for gifts to present to loved ones on Christmas Day.

It is truly a happy time but no gaiety should obscure the religious significance of the occasion. Dec. 25 is Christ's birthday.

Think of the job the tellers would have if all the little piggy banks went to market.

Even a man can be envied if he has a nice figure—in government bonds.

Purely Personal

By Truman Twill

The best World War II book I read was about an Englishman willing to trade his life for one shot at Adolf Hitler with a rifle. The book subsequently was made into a movie and became a powerful argument for the assassination of mad dogs in the human race. You keep wondering . . . just one clean shot at a couple of punks.

I am beginning to wonder if I couldn't learn to feel about Christmas the way old Scrooge felt about it—bah! We're wearing it out with the same silly excess we turn loose on everything we like.

One sure way to fatten up railroads would be to tighten up restrictions on dangerous practices carried on by over-the-highway trucks, so their unrealistically low rates would become realistically high.

For those of us unable to eat cucumbers without evil consequences there should be a regulation requiring restaurants to post notice when slivers and slabs of these nearly inedible "gourds" are concealed in salads.

One thing about hunting season must be listed as a plus. Meat-eating country dogs do all right with the game slaughtered and lost, or crippled and left to die by intrepid hunters too inept to find what they have been able to hit with their scatterguns.

I am sure that within 30 years airplanes will look as little like they look now as today's cars resemble those of 1930 and that there will be comparable improvement in their dependability.

Nothing looks more disconsolate than people who go about washing store windows

should shatter the last remnant of their morale.

This is a classic move in brain-washing—this time on a military scale.

The brain-washed victim is made to feel his helplessness in the presence of superior force. He is reminded in many unpleasant ways of the horrible things that can be done to him if he insists on asserting himself.

It is made plain that the ultimate consequence of self-assertion will be death. Then, when he is beginning to drown in his own despair he is permitted to see a glimmer of hope. All he needs to do to save himself is persuasion.

This was the siren song of Tokyo Rose and Axis Sally. This has been the propaganda pitch in wartime ever since the Trojans tried to talk the Greeks out of the siege of Troy—and the Greeks tried to talk the Trojans out of their stronghold.

Give up and everything will be wonderful. Otherwise . . .

A man was robbed of \$300 in a department store revolving door. No good ever comes of revolutions.

Newly married people often get along better when near relatives are far away.

Most men are attracted by a fire and thing except having such parents.

The quicker you are satisfied the sooner progress ends.

In the early morning, carrying buckets of inky water and wet chamois skins. To me, they are lonelier figures than the women who clean up office buildings late at night. Granted that the state of the weather is influenced by the state of the mind, I can recall no gloomier autumn than this one has been—with the state of my mind influenced by a strong conviction that cunning people are making a monkey out of my government in Cuba.

I will match the four-way intersections I use routinely against any comparable intersections controlled by a traffic light for safety and efficiency. It is my feeling that lightning rod salesmen switched over to traffic lights when they had oversold lightning rods.

One noise I never miss from one year to the next is the shrill whine of auto wheels being spun on snow and ice by fools so obsessed with horsepower they cannot comprehend the first principle of traction on a slippery surface, which is to give the tire a chance to grip the surface it is traveling on. Slowly does it, sucker.

I sometimes wonder, disinterestedly, whether the know-it-alls will still be telling the gullible what the stock market is going to do, then telling them afterward why it didn't do it, in heaven.

I think if I were Charles de Gaulle I'd resign now, while the French people are still grateful, instead of waiting until they are sick of being saved from their two franc politicians.

Does JFK's Housing Law Violate the Constitution?

By DAVID LAWRENCE

America today has a virtual dictatorship in the White House. "By one stroke of the pen," President Kennedy has just put into effect a "law" of his own to ban discrimination in housing.

Congress six times has refused to pass such a law, and Sen. Sparkman, D-Ala., warned on Oct. 9 that such an executive order

as has now been issued would be unconstitutional because an executive order cannot supersede a plainly expressed wish of Congress. Mr. Sparkman told the senate at the time: "If there is a prevalent national desire to kill our federal housing programs, this would be a way to do it."

The President's action is not authorized under any previous law of Congress or by any provision in the Constitution. Yet under the new order, citizens now will be subject to "such civil or criminal action" as the attorney general "may deem appropriate"

if they do not conform to the rules and regulations to be issued by "each executive department and agency subject to this order."

THE ORDER itself prohibits discrimination because of "race, color, creed or national origin in the sale, leasing, rental or other disposition" of certain residential properties and related facilities—through privately owned. The discrimination is prohibited if federal funds have been involved in the purchase, construction or operation of any of these properties.

This applies also to the insuring or guaranteeing of loans by the federal government. Nearly half of the houses and apartment projects built nowadays are financed by FHA or Veterans Administration loans. So the construction industry may soon feel a serious impact from this order.

Today the "law" concerns only mortgage money obtained under programs insured or guaranteed by federal agencies, but tomorrow the same "authority" may be invoked to bar a citizen from getting a mortgage loan at a bank or at a savings and loan institution unless he agrees to give up his inalienable right to dispose of his property to whom he pleases or to lease it to persons of his own choosing.

The unfairness of racial discrimination is widely recognized but the remedy does not lie in an unconstitutional or illegal use of executive power. There are lots of difficult problems that face the executive, but solutions will never be found in "an audacious usurpation of power," as Sen. Stennis, D-Miss., calls the new executive order. Sen. Robertson, D-Va., characterizes it as "absolutely unconstitutional" and as having been issued for reasons of "political expediency." Sen. Jacob Javits, R-NY, applauds it, as do others in Congress who believe "the end justifies the means."

THE PHRASE "by one stroke of the pen" was frequently used by Mr. Kennedy in the presidential campaign of 1960 when he criticized President Eisenhower for failing to issue the same kind of executive order that now has been promulgated.

Mr. Kennedy evidently feels he has the right to sign such an order discrimination in any private project that receives a federal

loan or federal assistance of any kind. Does it also become a president's privilege to specify how many employees of each race or religion or color or national origin shall work in a defense plant, or how many pupils in those categories shall attend private schools that happen to have mortgages directly or indirectly financed by banks or private institutions which are under federal supervision—as most of them happen to be?

The new executive order doesn't cite a single federal statute as legal authority for the action taken. It mentions instead such broad phrases as "the public policy of the United States as manifested in its Constitution and laws."

The President's order also says that the executive branch of the government has the "obligation and duty to assure that those laws are fairly administered and that benefits thereunder are made available to all Americans without regard to their race, color, creed, or national origin."

Once the federal government has any connection, however remote, with a loan to a contractor or prospective owner of a house, does the fact that such a loan has been made give the executive branch of the government authority for all time thereafter to regulate the sales and leases made by tenants who may become owners of the property?

When the federal government guarantees or insures a loan, does it have the right to coerce contractors and citizens generally to do its bidding—assuming that the terms of the loan have been met by the payment specified?

If the federal government now makes a loan to a college, moreover, does this give the president the right to issue executive orders stating how the educational institution—public or private—shall be operated and what proportion of students shall be from each race or religious group?

EXECUTIVE ORDERS heretofore have been directly related to a specific statute and have usually been regarded as a means of amplifying a provision but not as adding any new law or new authority which has not been explicitly set forth in the statute itself.

The Constitution says the president "shall faithfully execute the laws" but the president, merely by citing the "public interest," cannot issue his own laws or regulations governing the conduct of the citizen.

Congress could, of course, nullify the effects of the executive order by a specific statute. It is, incidentally, assumed here that the President purposely delayed the issuance of the order until after the adjournment of the recent session of Congress.

If the latest executive order is not withdrawn, it could mean that America has a government which is no longer based on the words of the Constitution but on the political whims of the man who happens to occupy the White House.

Cubans pose a threat to our national security."

THE PERIODICAL, in its October issue runs an editorial on its front page whose second paragraph states: "Whatever pretext Washington will seize will be a smokescreen for its own aggression; Dr. Castro and his colleagues certainly will use to commit suicide by providing a legitimate reason for U.S. military attack."

We must thus conclude that in advance that when the U.S. government contends that Cuba has provided such a reason fair statement of the Communist line!

ONE WONDER what kind of support this periodical and the FPCC receive from the Soviet agitation and propaganda arm.

It is hard to believe that this magazine lists among its contributors a justice of the Supreme Court and includes on its board of sponsors at least two Nobel prize winners, several notable theologians and professors, a retired Army general, and a vice president of the Fund for the Republic! The biggest name among the sponsors, however, is that of humanist Albert Schweitzer. How subtle the Communist line!

Your Taxes and You

By RAYMOND MOLEY

My Fellow Citizens: This is a short discourse on you and your taxes. It is addressed to all American of voting age.

Almost half of you did not take the trouble to vote for your representatives in Congress at the recent election. Therefore, although your chiefs for lower taxes are piercing and piteous, you don't deserve any relief. Of those of you voted, one half chose to return the members of the present Congress to office, most of whom have voted to tax you for innumerable fool proposals to spend our money. So you, too, don't deserve any tax relief.

Please don't delude yourselves into believing that the politicians whom you have elected, including the chief magistrate whom you elected two years ago, have failed to note that you have not cared much about your taxes, despite your weeping and wailing.

ALSO, PLEASE don't believe them when they say that next year you are going to get a break. You won't get it, because you really haven't cared enough about it to elect people who will give it to you.

I realize that these harsh comments are not going to make me popular with most of you. That gives me no concern at all. For over the years in these essays I have said so many unpopular things that it is a wonder I have not been thrown out of your newspaper. But people are still printing what I write and I am getting paid for it.

I am eating three times a day,

have a roof over my head, and have a little laid by. The latter, however, will be worth only half of what it is now if you keep voting or nonvoting as you do. It will be quite a race between my savings and my animate being.

Here are some more unpleasant facts to read, if indeed you have read this far.

This year about 100 million Americans will file individual income tax returns, about the same number as those who have the legal privilege of voting. These will account for about 70 million dependents. We individual income taxpayers will be bitten for about \$49 billion. Corporations will pay about \$23 billion more.

Those corporations must add that sum to the price of everything you buy. So you will be paying that, too. And you will pay an additional \$10 billion in excise taxes.

Then there are, in addition and outside the regular President's budget, \$3.4 billion in excise taxes for the highway program. Those who use gasoline will pay that also.

FINALLY, most of you will pay \$15.4 million in employment taxes for the Social Security program.

And this should remind you that when you get some of it back in the future, the dollars will be worth about half of what they are worth now. Because all this income will not satisfy the appetite of the administration and Congress for money. They will run a deficit, which means inflation.

To make matters still more unpleasant for all of us, our tax system falls more heavily on some than on others. Anybody can tell you that many individuals—rich, poor, and middle-income people—are not carrying their share of the tax pack. Some must work while some will shirk.

This tax pack on our collective back hurts some places so much as to cause painful soreness. And so there are heart-breaking cries for readjustment. Complete revision is long overdue.

What has your Congress done about this unfair distribution of the load?

In the late 1940s there were four revenue acts passed by Congress reducing taxes. But most of those abolished wartime levies which were no longer needed, even by a government which never seems to get enough.

THE HOUSE Committee on Ways and Means (which, incidentally, is a very conscientious and hard-working committee) worked two years to create a fine tax revision measure. The House passed it and the Senate rejected

it. Then came the Korean War and taxes were raised again.

Finally, in 1954, we had a Congress which gave us a big break and reduced taxes by \$7.4 billion. But in the election that year you, the voters, turned on that Congress as if it were made of thieves and poolrooms. Out it went. And since then, four successive Congresses have not had the nerve to do what the 1954 Congress was punished for.

Now don't be deluded with talk about a nice tax cut next year. Do you expect the new congress to act any differently from those we have had? That, as Adlai Stevenson said about an elated expectation of an easy Cuban settlement, would be "the triumph of hope over experience."

By Dr. GEORGE E. S. BENSON
President, National Education Program

As the pre-election debates were tending more and more to concern themselves with American foreign policy, the Cuban crisis swiftly came to a head on the basis of aerial reconnaissance photos.

The press services and editorial writers were soon observing that the Cuban crisis was casting a shadow behind President Kennedy so that near unanimity prevailed in support of the President's firmness.

The performances of this far-left periphery probably should concern us since it is partially identifiable from some 30 candidates that it had around the nation in the recent election.

These candidates were talking up such platforms as banning the nuclear weapons and ending testing, giving foreign aid to Communist satellite nations, recognizing Red China and East Germany, and being fair to Castro. With these and other proposals, for example, Harvard Professor H. Stuart Hughes was bidding for JFK's old Senate seat and for as much of the liberal vote as he could lure from Brother Teddy.

IT IS NOT SO MUCH the possibility of being chosen by the electorate that interests us now, as it is the propaganda effect of the views held by these so-called "Peace" candidates.

But what is perhaps of major concern is the success they often have in influencing the platforms of the major parties and occasionally in launching a kindred spirit or two into the orbit of the White House advisors. The service rendered by many of these people to World Communism in its recent

History Today

Today is Saturday, Nov. 24, the 328th day of 1962. There are 37 days left in the year.

Today's highlight in history:

On this day in 1903, Clyde Coleman was granted a patent for the first electric self-starter device for automobiles. It wasn't until 1911, however, that self-starters were applied commercially.

On this day:
In 1637, New Haven, Conn., was purchased from the Indians.
In 1830, the Belgian Congress voted perpetual exclusion of the House of Orange from the Belgian throne.

In 1863, the Civil War battle of Lookout Mountain was fought. Georges Clemenceau died.

In 1945, the U.S. Navy announced that a complete cure for cholera had been found.

Today's birthday:
Dramatist-director Garson Kanin is 50.

Thought for today:
Be wise, soar not too high to fall; but stop to rise—Philip Massinger.

The Leftward Fringe

drive to squelch anti-Communists was also a notable development.

It does seem to be a matter of serious concern that these Communist-sponsored ideas are infiltrating our country. If the process were limited to "Ivory tower" poets and philistines, perhaps little harm would be done.

Unfortunately, however, some thought leaders are captured by the altruistic nature of these proposals. The harm is done when the Communist fifth-column sees to it that the greatest possible mileage is obtained from any idea or development that offers support of the Communist line.

MORE AND MORE the U.S. Communists are finding ways to get others to serve them.

They have been used as foreign agents despite Supreme Court directives and still free to print whatever they please, U.S. Communist Party members work like beavers weaving their "peace" lines into every communications channel.

They even get into the government. One recalls politician William Wieland, a Castro friend and apologist in the State Department, who only last year enjoyed a public defense from President Kennedy.

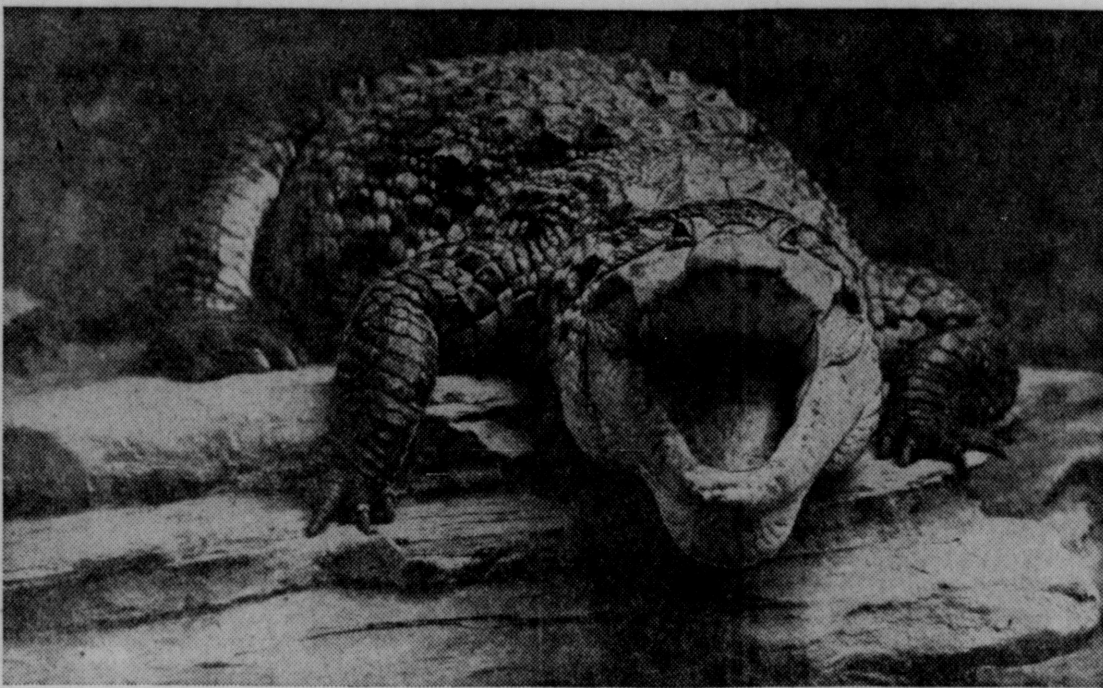

Barely four weeks before the Navy was blockading Cuba, the Fair Play for Cuba Committee sent out a sample copy of the magazine The Minority of One, in an effort to raise money for itself and subscriptions for the periodical.

The magazine, according to the Committee, was co-edited and supported the Cuban Revolution despite the mounting hysteria in our country that has been encouraged by a lying press that would like some 200 million Americans to believe that 7 million

FIGHTS AGAIN

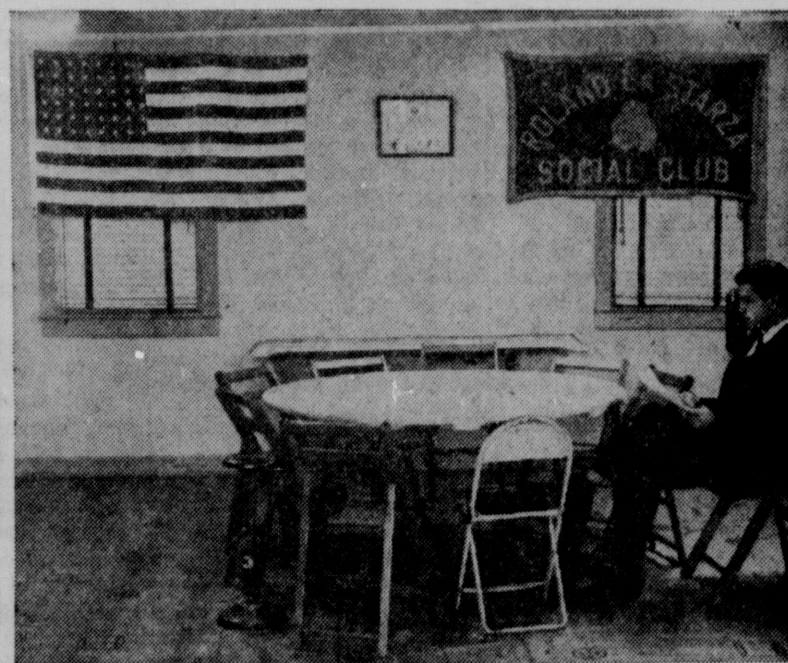

ONCE a top contender for the heavyweight boxing championship, Roland La Starza is still fighting, only this time he brought his gun along. La Starza plays the role of a soldier in Italy in the new television series, "The Gallant Men." Recently he made a sentimental journey to the Bronx, N.Y., neighborhood where he was born. La Starza turned to boxing after a stint in the Army in World War II. He won 37 straight fights before Rocky Marciano stopped him. In his second fight with Marciano, La Starza sustained an arm injury that he still feels occasionally.

The Social Notebook

"CRUSADES SCHOLARSHIP students" was the title of a film shown by Mrs. Donald Stapleton and Mrs. Robert Kaminsky when 18 members of the Wesleyan Service Guild of the First Methodist Church met recently in the music room of the church.

Devotions were presented by Mrs. Helen Labbe and members voted to give a cash donation to a needy family's Christmas and also for a gift to a Columbiana County inmate of the Boys Industrial School at Lancaster.

Members worked making Christmas tags for the multiple sclerosis project.

Mrs. Arthur Fleischer and Mrs. Charles Safted served refreshments at the close of the business session.

The next meeting will be at 8 p.m. Dec. 10 at the home of Mrs. Burton Sutter of 1266 E. Pershing St.

MRS. JOSEPH SOBEK and Mrs. Frank Schmid will be in charge when members of the Catholic Daughters of America meet at 9 a.m. Tuesday at the K of C Hall for an all-day sewing session on articles for missions.

TAALKETTE CLUB members will meet Tuesday in the home of Mrs. Mike Fusek of Canfield.

REGULAR meeting of the Jokers Club has been postponed until January. The group plans to dine out for the December get-together.

Hobbyettes Club will be entertained by Mrs. Allen Lockhart Tuesday evening.

Fellowship class of the East Goshen Friends Church will be entertained tonight by Mr. and Mrs. Charles Williams.

North Benton to Hear New Pastor Sunday Morning

NORTH BENTON—Rev. Ralph Thompson will deliver his first sermon Sunday morning as pastor of the Presbyterian Church. The topic will be "Remember Him Outside."

A 1943 graduate of Princeton, N. J. Theological Seminary, Rev. Thompson, who is 49, was ordained in April of that year by the Chester, Pa., Presbytery.

Rev. and Mrs. Thompson have four daughters and two sons. He has been active in youth and visitation work at the Pleasant Hills United Presbyterian Church near Pittsburgh.

Formal installation of Rev. Thompson will be Dec. 2.

He succeeds Rev. Russell Williams here.

FIRE CALL ANSWERED

Discovering that the oil furnace of his home was overheated, Philip Groves of the C. and C. Traylor Court, Damascus Road, called the Salem fire department shortly after 6 p.m. Friday. There was no fire damage.

First Friends Church and organized the city's first civic unit—the Salem Woman's Christian Temperance Union.

With these women on this occasion was Mrs. Mary A. Woodbridge of Ravenna, president of Ohio WCTU from 1879 to 1886, who gave the organizational address.

The first president of the local union, Mrs. John Wetmore, lived on S. Lincoln Ave., at the corner of Franklin St., in the house formerly known as "The Mansion," now the Harper Apartments. Mrs. Mary B. Arrison was the general vice president.

Other vice presidents included: Miss Hannah Fogg, Mrs. David Garwood, Mrs. A. B. Farquhar and Miss Lizzie Wilson. Mrs. Mary Woodruff and Mrs. E. A. Goucher were recording and corresponding secretaries, respectively, and Mrs. E. A. Sturgeon as the treasurer. First regular sessions were held in Temperance Hall, Depot St., now S. Ellsworth Ave.

Convicted Forger Writes His Own Release Document

RIPLEY, Tenn. (AP) — Embarrassed officials fear a man serving a forgery sentence has written his way out of the Fort Pillow State Prison Farm near here.

Howard Lee White, 33, of Memphis, was released last Saturday after the necessary papers had been received by prison authorities. The papers proved to be forgeries.

"Nothing like this has ever happened here before," said Warden Bill Hunt.

Only an expert, Hunt said, could have detected the difference between the phony documents and the authentic ones which the prison receives through various channels every day.

That's not all. Officials say a man answering White's description has left a trail of checks forged on the prison account.

Camera Club to See Slides of Europe

Mrs. Emm Bonfert and Mrs. Renee Sechler will show travel slides of Europe when the Salem Camera Club meets Wednesday at the Bonfert home at 184 S. Lincoln Ave.

Plans for the club's Christmas party, to be held Dec. 12, will be made and "Match the Master" material will be distributed.

Jury Awards Patient \$7,500 In Damages

LISBON — A common pleas jury at 9 p.m. Friday awarded \$7,500 to a Wellsville man who had filed a malpractice suit against an East Liverpool doctor for placing a cast on a broken leg too tightly, resulting in a severe case of osteomyelitis.

Bernard Ference of Clark St. was awarded this sum by a jury which deliberated 5 hours and 40 minutes. Ference had asked for \$15,000 from Dr. Roy C. Costello of East Liverpool.

The trial began Nov. 13. The jury heard testimony for five days and the sixth day they heard four hours of closing arguments and the charge by Common Pleas Judge Raymond S. Buzzard.

sentiment created by the Temperance Crusades back in the early 1870s. It is now the largest woman's organization of its kind in America. The Crusades were made up of little bands of home women who went into saloons with petitions for their closing, and also prayed there.

The WCTU has trained hundreds of teachers in methods and techniques of Narcotic Education through its special courses. A full-time legislative representative is maintained in Washington, D.C.

In the early days of the Salem Union, the women had a sewing project and made hundreds of garments for needy families. Holiday dinners were provided, the sick visited, and hundreds of bouquets distributed, records reveal.

There was a sewing school for girls, an the Union also operated a toy mission.

In 1902, the local Union entertained the Ohio WCTU convention.

In 1907, through its Scientific Temperance Instruction department, the Union sponsored a series of meetings for school children, at which time 1,500 youngsters pledged against the use of tobacco.

Early in the century the Union was successful in securing a local option election in Perry Township and the township was voted dry.

A baby welfare campaign was sponsored by the Union in April, 1916. The meetings were held in various churches. Among the Salem doctors who cooperated with the Union in this campaign were: Dr. Henry K. Yaggi, Dr. E. J. Schwartz and Dr. George J. Hawkins. Other citizens who participated were: Claude Taylor, president of City Council; Prof. B. F. Stanton, principal of Salem High School, and Atty. K. L. Couborn.

The educational program carried on by the Woman's Christian Temperance Union covers 22 fields. The Salem Union includes a part of these in its activities. In recognition of its 80th anniversary, the Union placed over 1,000 lead pencils in the city's elementary schools in September, along with some temperance books. On the pencils is the slogan, "Drinking Prevents Thinking."

City, Country Communists

Soviet People Divided Into 2 Groups

By PRESTON GROVER
MOSCOW (AP) — A drastic shakeup of Soviet party and government organs today divided the Soviet Union's Communist world in two—city Communists and country Communists.

The object: to meet Premier Khrushchev's demands for more goods and more crops.

The Communist party's Central Committee, ending a week-long meeting in the Kremlin on Friday, ordered the sweeping measures to "correct serious shortcomings" in the economy.

A group of rising party leaders, of the generation just after Khrushchev's, emerged from the

sessions as the men to make the program work.

The top-to-bottom reshuffling, one of the most thorough in Soviet history, aims also at leveling out differences between city workers and peasants.

Ever since the beginning of the revolution against the old Czarist regime, the workers who did most of the fighting have had the best of it.

By last year, the Soviet Union, once well above 80 per cent agricultural, had moved by a fraction of a per cent to the industrial side and had more city workers than farmers.

Under the new program a sep-

arate party agricultural organization split will extend from the Kremlin to the farthest outposts.

The aim is to permit those party members primarily concerned with farming to concentrate entirely in that field to get reluctant farmers to work harder and try to match European and American production.

Party members concerned with industry—and these are almost entirely in the cities—will occupy themselves with industrial and building affairs.

The reorganization struck some Western observers as a poor second choice forced upon the government and party leaders as an alternative to a much-needed capital investment program that has been made impossible by the demands of space rockets and national defense.

Two economic and production experts, Alexander P. Rudakov and V. I. Polyakov, were made members of the Central Committee and placed in charge of the two new bureaus dealing with industrial and agricultural management.

Rudakov, 52, who heads the Industry Bureau, is a graduate of the Leningrad Mining Institute and worked in the coal and iron fields of the Donetz Basin for sev-

eral years before starting up the party ladder.

Polyakov, also in his early 50s, will head the agricultural wing. He is the editor of a farm magazine and, from his biographical sketches, appears never to have put his hand to a plow. After graduation from a second-level agricultural institute, he switched to journalism and for a time served as farm editor of Pravda, the Communist Party organ. He accompanied Khrushchev to the United States in 1959 as one of the correspondents invited to make the tour.

DISALLE GRANTS STAY

COLUMBUS, Ohio (AP)—Lawson E. Schaber's life has been spared at least until next Friday. The week's stay of execution was granted the Toledoan Friday by Gov. Michael V. DiSalle who said he wanted more time to consider "the serious questions involved in the matter."

Schaber, 24, was scheduled for the Ohio Penitentiary's electric chair Friday night for the robbery - slaying of Mrs. Vilma Byers, a Toledo taxi driver, in February 1960. The robbery netted \$8.

Cleveland Woman Death Accidental, Police Believe

CLEVELAND (AP)—The death of an attractive housewife whose partially clad body was found in Lake Erie apparently was accidental, Bay Village police say.

They came to that conclusion Friday after finding a torn flannel shirt and a skid mark down a steep cliff overlooking the lake.

The body of Mrs. Jaylene Nobes, 43, was found Thursday near the beach at the foot of the 65-foot cliff behind the Nobes home.

Coroner Samuel Gerber said Mrs. Nobes had drowned, but withheld an official ruling pending completion of the police investigation. He said she also suffered a skull fracture and broken wrist in falling down the cliff.

"All the evidence we have so far indicates she accidentally fell while planting narcissus bulbs," Police Lt. Fred Drenkhan said.

Mrs. Nobes' husband, Charles, identified a flannel shirt as one of his own which his wife wore while gardening. He had reported his wife missing at 1:30 a.m. Thursday, an hour after he returned from Bryan, Ohio.

Patrolman Thomas Davis donned skin - diving gear and found the shirt lodged on a concrete reinforcing rod sticking out of the lake. All but the two top buttons had been torn from the shirt, apparently when Mrs. Nobes skidded down the cliff. Police Chief Jay Hubach indicated the accident happened about 8 a.m. Wednesday. The area where Mrs. Nobes was gardening had been filled in recently and part of it apparently gave way.

CORONER TO RULE

CHARDON, Ohio (AP)—Acting Coroner Walter Corey was expected to rule today on the cause of death of Simon Soeder, 52, of Cleveland, whose body was found Friday in a wooded area in Thompson Twp. Soeder had been missing since early October.

Traffic Suits Filed As Result of Crash

LISBON — Four suits totaling \$22,050 for injuries in a traffic mishap were filed Friday by parents of four Columbiana County youths in Common Pleas Court.

Mervin J. Vonada of Howard, Pa., was named the defendant. The youths, Ronald Freeman Schultz, James R. Heim and Richard Charles Pieren of Leetonia and Jesse Fish of RD Salem were passengers in a car driven by Donald L. Moore of RD 3, Salem, when it collided with Vonada's auto on Route 62, about two miles west of Salem.

The plaintiffs claim Vonada's car made a left turn in front of Moore's auto.

Schultz and Fish ask \$10,000 each, Heim, \$1,030, and Pieren, \$1,020.

Salem Holds 3rd Drill In 5 Days At Akron Today

Quakers Faced Veteran Teams

Friday's Practice Was For 4 1/2 Hours

With two impressive workouts to their credit, the Salem Quakers traveled to Akron this morning for a scrimmage with Hoban as the Salem High basketball team continues preparing for the home opener with Columbus East Dec. 8.

It will mark the third drill in five days for Coach John Cabas' aggregation. Salem practiced with Farrell, Pa., from 10 a.m. until 12:30 p.m. Friday, then after a brief rest took on Canton South for two hours.

The session for today was set up for morning and afternoon practices, but Cabas may cut out the second drill. Cabas said, "we are somewhat fatigued from all the basketball we have played this week."

SOUTH WARMED UP with a 45-minute session against Farrell yesterday. The Wildcats' all-veteran squad then took on Salem and maintained a 15 point bulge during the drill.

In the starting lineup for South were a 6-8 center and a 6-7 forward. Both boys were strong on the boards.

At Beaver Falls Tuesday, Salem probably met the biggest squad it will ever face and defeated the Pennsylvanians 51-45 under regular game conditions.

Cabas has been pleased with the team's progress so far. He said "the squad is beginning to jell and our defense is very surprising."

Celtics Regain NBA Lead Again; Syracuse Loses

By THE ASSOCIATED PRESS It doesn't seem likely, but New York's lowly, oft-beaten Knicks are making their presence felt in the Eastern Division race in the National Basketball Association.

Thanks to New York, the Boston Celtics today are back in their accustomed spot atop the division standings. The Celtics, out of the top spot for one day, regained the lead with a 116-104 victory over Chicago Friday night.

But they had to have an assist from the last-place Knicks to do it. New York obliged by dropping Syracuse, now in second place, 116-110. It was the Knicks' third straight victory and their first of the season over an Eastern team.

St. Louis and Los Angeles remained in a tie for first in the West, the Hawks bombing Detroit 121-93 and Los Angeles outlasting San Francisco 129-124.

USC Battles UCLA Today; Badgers Take On Gophers

By BOB GREEN Associated Press Sports Writer Southern California today faces UCLA. The initials sand for University of California at Los Angeles, not Upsets Can Liquidate Anyone. But the mighty Trojans have to consider both.

Southern California, one of the few major college football teams that hasn't suffered an upset this season, has virtually secured a spot in the Rose Bowl. But a perfect record and the national championship hang in the balance in its game with old foe UCLA.

Kroll's 138 Leads Orlando Tourney

By BOB HOOBING Associated Press Sports Writer BOSTON (AP) — Tommy Yewcic, thrust into the command post by Babe Parilli's injury, has the Boston Patriots back in the same high gear his predecessor did.

Yewcic, a former bonus catcher with the Detroit Tigers, credited his teammates, including Parilli, who suffered a broken collarbone in last week's defeat at Houston.

Browns Still Have Mathematical Chance

New York Risks 5-Game Win Streak At Washington Next

By The Associated Press The last time Y. A. Tittle ran into the Washington Redskins, he peppered them with seven touchdown passes, tying a National Football League record. He also launched the 'Skins on a dizzying downward spiral.

Now Tittle, the balding passer, master, and his streaking New York Giants face the Redskins again Sunday at Washington.

(4-6) at St. Louis (2-7-1), Dallas (4-5-1) at Philadelphia (1-8-1) and Los Angeles (1-9) at Minnesota (2-8).

Mina Fights Hank In TV Debut Tonight

NEW YORK (AP)—Mauro Mina of Lima, Peru, makes his United States debut tonight and the cheering you hear in the background will be 100 per cent pure Peruvian.

Besides Washington, two other clubs have mathematical hopes in the East—the Pittsburgh Steelers (6-4) and the Cleveland Browns (6-4-1). They clash in a telling struggle at Cleveland, with the loser eliminated.

But the Redskins also have something going for them in Norm Snead. He connected for four touchdown passes in the last game against the Giants. Two of them were to Bobby Mitchell, who hasn't scored since.

About 200 followers of the South American light heavyweight champion paid approximately \$560 each to fly up for the fight. They will be decked out in "Mina hats," sombrero-style, and equipped with whistles.

Other games have Chicago (6-4) at Baltimore (5-5), San Francisco (4-6) at St. Louis (2-7-1), Dallas (4-5-1) at Philadelphia (1-8-1) and Los Angeles (1-9) at Minnesota (2-8).

This is the second meeting for the Steelers and the Browns. The last time they met, Cleveland won easily, 41-14. The Steelers, however, have won their last three games. Fullback Jimmy Brown of Cleveland appears to be fully recovered from his wrist injury.

Mina's opponent is Henry Hank of Detroit, normally a middleweight. They are to fight 10 rounds or less in Madison Square Garden with network (ABC) television coverage at 10 p.m. EST.

Mina has a 41-2-1 mark with 21 knockouts. Hank has a 53-16-3 record with 36 knockouts.

Other games have Chicago (6-4) at Baltimore (5-5), San Francisco (4-6) at St. Louis (2-7-1), Dallas (4-5-1) at Philadelphia (1-8-1) and Los Angeles (1-9) at Minnesota (2-8).

Waterford Extends Race Track Program

Eugene M. Frederick, chairman of the West Virginia Racing Commission, during a visit to Waterford Park announced that a one-week extension of the current meeting has been granted.

The field was trimmed to the players with scores of 148 or better at the end of Friday's second round. Among those who fell out was the defending champion, Gay Brewer Jr., of Crystal River, Fla. He had a 74-75-149.

Kroll, who shot a 69 in the opening round, cut one more stroke from par Friday with a 68. Finsterwald just missed tying Kroll when a putt on the last green stopped inches short. The 33-year-old pro, who has put together two 69's, has won this event twice before and the sponsor has offered a \$10,000 bonus on top of the \$5,300 first place money if he can do it again.

James F. Edwards, owner and operator of both Waterford Park and Wheeling Downs, stated today "The move was made to satisfy numerous requests by patrons and those connected with racing at Waterford Park for an extension, due to the fact that there is no other racing within hundreds of miles of this area at the present time."

He added, "By running through Dec. 15 at Waterford Park it would shorten the time between the closing of this meeting and the opening of Wheeling Downs on Dec. 26 thereby giving the horsemen upwards of \$65,000 in added revenue, distributed through purse disbursements, and would shorten the layoff period for all officials and employees of the two Northern Panhandle tracks."

Upon hearing of the extension the horsemen unanimously voiced their approval and appeared openly enthusiastic regarding the added six days of racing at West Virginia's only one-mile race course.

General Manager Harry R. Bell announced that post time for the remainder of the fall meeting at Waterford Park and throughout the entire winter session at Wheeling Downs has been advanced to one p.m. daily.

Falento, a former college basketball player, says he had no dealings with Jack Molinas, but testified that he accepted \$500 bribe money from Joseph Green.

Green is one of the alleged co-conspirators in the basketball scandals trial of Molinas, a 30-year-old Brooklyn attorney and former Columbia and professional basketball star.

Molinas is charged with bribing Billy Reed, a former Bowling Green, Ohio, University player to dump three basketball games, with conspiracy in an attempt to fix 25 college basketball games, and with procuring a witness to commit perjury.

Falento, a former teammate of Reed at Bowling Green, testified Friday that he had met Molinas only once, and that the defendant had not asked him to dump games, nor had he accepted money from Molinas.

He said his only contact was with Green, who paid him \$500 before a game with Michigan State Dec. 3, 1959. Michigan State won 96-67. Falento said Green told him Bowling Green was to lose by eight or more points. Reed earlier testified that the game was one in which bribe money was offered.

U. S. Men Rip Russian Basketball Team 85-60

DENVER (AP)—Russian women are widening their superiority over American women basketball players, but the United States men amateur stars have just about pulled even with the Russian national men's team in their current cross-country tour.

A 85-60 victory Friday night by the U.S. men cut the Russian's series lead to 4-3 after the Soviet women scored their seventh triumph without a loss by smashing the Wayland, Tex., College

Lucci Is Key To Browns' Defensive 4

CEVELAND (AP)—The Cleveland Browns' defensive unit, owning the fourth best record statistically in the National Football League, has been the key to what success the Browns have had so far this year, according to Coach Paul Brown.

While much of the credit has been going to the "up-front four," the defense is a team effort, as pointed out by Mike Lucci.

Lucci, a rookie linebacker, was asked Friday what he found most difficult in his first season.

"Team defense," Lucci grinned. "I did more free-lancing in college. Pass coverage also is tougher with the pros. You just have to be in the right place at the right time."

Galen Fiss, captain of the defensive unit, calls Lucci, Sam Tidmore and Stan Scuzurek three of the best rookie linebackers he's ever seen coming along at the same time. Scuzurek suffered a knee injury and is out of action this season.

Lucci has qualities needed for the demanding job of linebacker in the NFL. At 6-foot-2 and 227 pounds, he is big enough, and he has agility. From Ambridge, Pa., almost in the shadows of the steel mills, Lucci is a rough performer.

Lucci spent two seasons at the University of Pittsburgh before going to Tennessee. The Browns picked him in the fifth round of the 1960 NFL draft when he still had another year of college eligibility.

Pflugerville 55-Game Win Streak Is Snapped

PFLUGERVILLE, Tex., (AP)—Tiny Pflugerville was shrouded in gloom today. Its football team that set a national scholastic record for consecutive victories has finally bitten the dust.

End of the string that stretched through 55 games came Friday night as Pflugerville bowed to Holland 12-6.

Pflugerville broke the record of Abilene, Tex., which won 49 straight from 1954 to 1957.

A word from **THERON** at the Country Store

IT PAYS TO ADVERTISE

The Country Store started as a little bread and milk stop more than ten years ago. From the start it was filled with customers.

We used to run big ads. People would come out, many would say "What is this it." We were looking for a big place.

Today they don't say that, many don't expect to find a place so large and so complete out here in the country.

Kennedy To Attend Harvard-Yale Game

HYANNIS PORT, Mass. (AP) — Harvard man John F. Kennedy is easing up today and going back to the campus for the big game.

It's Harvard versus Yale in the Crimson's big stadium beside the Charles River in Cambridge, Mass.

The President banned all but a minimum of business at his Hyannis Port home on the Cape Cod coast in order to fly to Boston by helicopter, take in the game, and fly back.

One bit of business reportedly on tap was the appointment of a new U.S. commissioner of education, a position that has been vacant since June.

It seemed appropriate to the day that the man reportedly having the inside track was Francis Keppel, dean of the Harvard Graduate School of Education.

Kennedy is not only a Harvard grad but also one of the university's overseers.

Kennedy's decision to go to the Harvard-Yale game, and to the Army-Navy game in Philadelphia next Saturday, was still another indicator of the degree to which the Cuban crisis has waned.

The President did review the Cuban problem with top administration advisers Friday. And it is certain to be a key item of discussion in his next conference with Prime Minister Harold Macmillan of Britain. The temporary White House all but confirmed Friday that another Anglo-American summit session is in the making.

Kennedy has been spending a long holiday weekend at his summer place at Hyannis Port. He plans to lock it up for the winter Sunday night or Monday morning and head back to Washington.

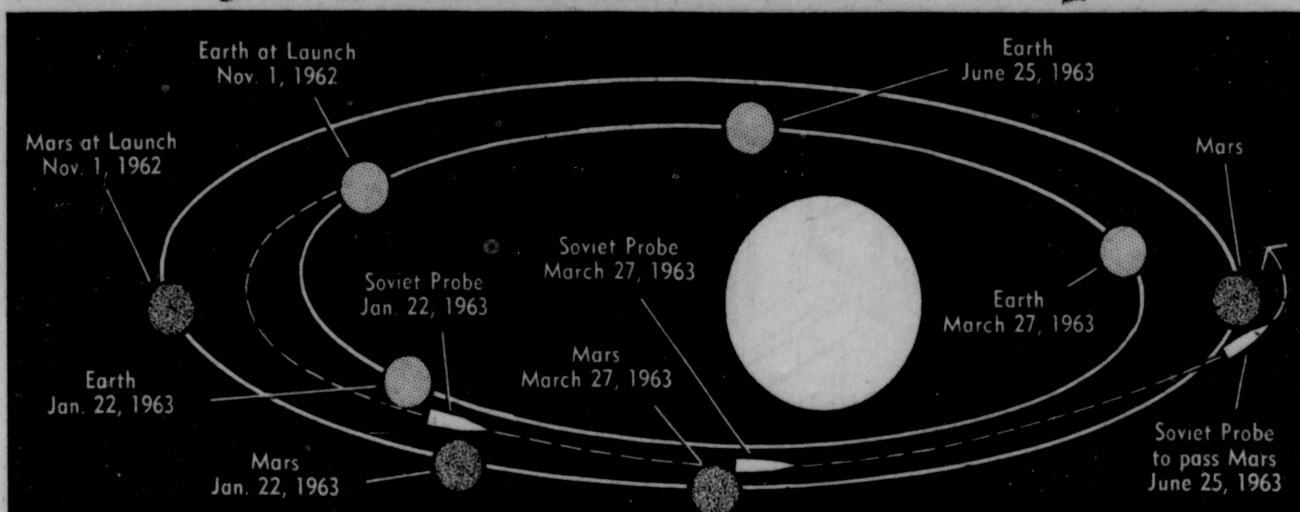

For today, Kennedy was refurbishing old school ties.

The President, a Harvard graduate, class of '40, never made the varsity, but he played freshman football in 1936 and was on the junior varsity in his sophomore year. He did better in another intercollegiate sport at Harvard, sailing, in which he made the team.

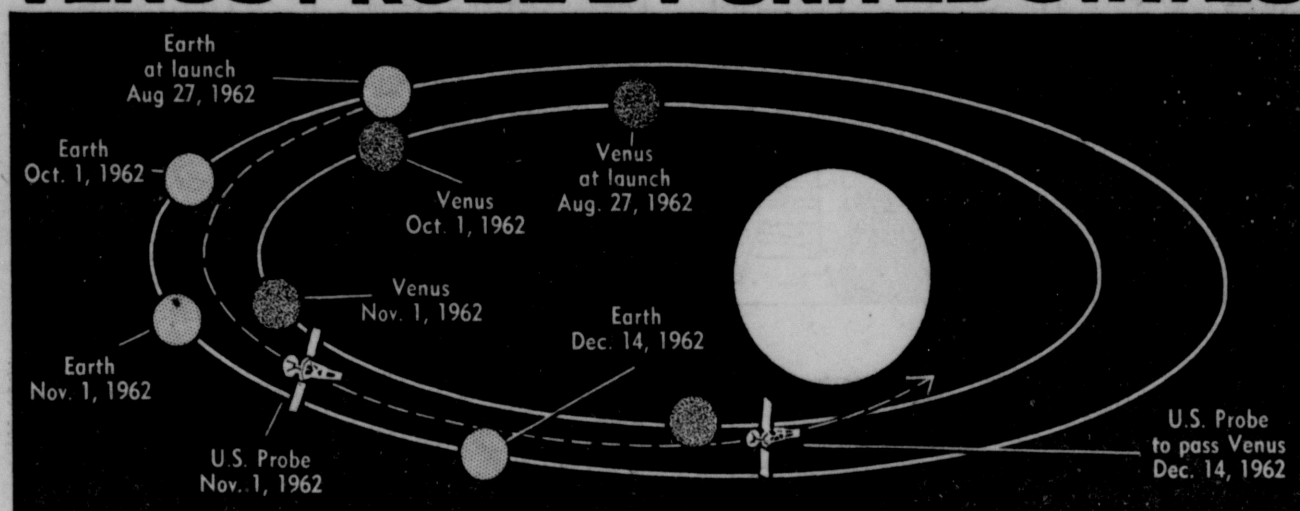

Matter of Fact

In the supermarkets you can find low calorie bread, sodium free bread, cracked wheat bread and endless other varieties. Bread is chiefly made from seven grains: wheat, rye, corn, barley, millet, oats and maize. But in time past when these grains were not available, bread was made from acorns and the inner layers of pine bark. In times of famine it was even made from a bit of flour mixed with straw, sawdust or even with earth.

Taking a Peak At Our Space Neighbors

MARS PROBE BY SOVIET UNION VENUS PROBE BY UNITED STATES

Now en route to our near neighbors—two space probes, one by the United States, one by U.S.S.R.

Uncle Sam's snooper, outbound toward Venus Since last Aug. 27, is expected to fly past Venus Dec. 14. If all goes well, it will radio back information on deep space and environment from earth's neighbor next

nearest the sun—some 25 million miles at its closest approach.

Soviet space probe, launched Nov. 1, is outward-bound for Mars, earth's next neighbor farther away from the sun, and some 35 million miles away at its closest approach. Rendezvous date: June 25, 1963.

Since Mars will be some 150

million miles away at rendezvous, beyond the reach of present day radio and television technology, speculation exists that the Russians would bide their time until the space probe traveled around the sun and back toward earth. Then, months after rendezvous, they would send a signal for the satellite to transmit pictures it

had taken when it passed Mars.

Chilling prospect: If the Russians used no new orbital gimmick, their 1,996-pound probe would have been put in space by a rocket at large or larger than our first Saturn, now in the works. That would permit delivery of 10-ton payload used as a weapon.

plosion and fire."

Joseph Fluet, chief of the accident investigation division of the CAB, who flew over the area in a helicopter, declined comment when asked about the possibility of sabotage.

Thomas Jenkins, special agent in charge of the FBI office in Baltimore, said the FBI sent a disaster squad to help identify the victims and for no other purpose.

Three hours after the crash, investigators retrieved from the smoking wreckage the flight recorder, a mechanism encased in a shatterproof steel ball. It keeps track of the plane's altitude, speed and other data. The flight record was expected to play an important part in the investigation.

In Washington, the final messages between the plane and control tower were being prepared for intensive study by CAB experts.

Capt. Balog, the pilot, flew 35 combat missions as a B24 pilot in Europe during World War II and held the air medal with five oak leaf clusters and the distinguished flying cross. He joined Capital Airlines after his discharge in 1945 and went to United when it absorbed Capital in 1961.

Ten of the victims were employees of United, although only four were on duty in the Viscount.

AUTOS COLLIDE

Cars driven by Lee Ellis Harrington, 24, of Alliance and Bryan S. Sanor, 66, of the Georgetown Road, RD 2, Salem, were damaged slightly shortly after 1 p.m. Friday in an accident on Prospect St. near the 400 block. Police said the Harrington car was following the Sanor vehicle, which pulled to the left to make a right turn, and that the cars collided when Harrington started to pass on the right side of the Sanor vehicle.

With the Patients

Helen Finley, 47, of North Benton, was treated and released at Alliance City Hospital Friday for a lacerated finger which she injured while working at Bettis Box Company.

Sally Fahey, 2, of North Benton was treated and released at Alliance City Hospital Friday for contusions to her left hand which she suffered when she shut a door on her hand.

BICYCLE IS STOLEN

Mrs. Betsy Batcha of 486 Aetna St. reported to police today that sometime between 9:30 p.m. Friday and 4 a.m. today someone walked into her apartment via the front door, which was unlocked, and took her son's bicycle. The bike was valued at \$45.

4 Persons Injured In 2-Car Collision

Four persons were injured, none of them seriously, in a two-car collision at the intersection of W. Wilson St. and Sharp St. at 2:20 p.m. Friday.

Phyllis L. Reynolds, 30, of RD 4, Lisbon, was treated for a back injury and released from Salem City Hospital. Also treated and released were Fred Bell of 162 W. Pershing St. with abrasions of both legs and Kenneth Woods of RD 2, Salem, abrasions of the left knee.

John Seroka of 440 Aetna St. was admitted to Salem City Hospital with a bruised neck, where his condition is listed as fairly good.

Bell, Woods and Seroka were passengers in a car driven by Arthur Meiter, 41, of 560 N. Ellsworth Ave. Meiter was not injured.

The accident occurred as the car driven by Mrs. Reynolds which was traveling east on Wilson St. failed to stop for a stop sign and struck the Meiter auto which was traveling north on Sharp St., police said.

Mrs. Reynolds was charged with failure to yield the right of way.

minister will be surveying a scene of great and unpredictable change in world events.

Assistant Secretary of State Harlan Cleveland, in a speech Friday night at Philadelphia, gave what aides described as a sum-up of U.S. government thinking on the current situation in the aftermath of the climactic U.S.-Soviet confrontation over Cuba. In words that tended to sound optimistic on future prospects, Cleveland assessed the international situation this way:

The Soviet Union has become a major world power but international communism, after having hit a peak in the immediate post-war years, has gone into decline. Externally, the Communist world has been rebuffed by Western firmness. Internally, it is so split that the idea of a solid Communist bloc has become an "antique Communist dream."

To Cleveland, who handles U.N. affairs, "the only sensible course of action for the Soviet Union" now is to seek "some live and let live formula."

U.S. and Russian negotiators are currently meeting in New York on carrying out remaining terms of the proposed Cuban settlement.

No new Western initiative for a Berlin settlement is in the offing, although U.S. officials said a wider range of negotiations with the Soviets on cold war issues is now possible. During the height of the Cuban crisis, Washington concentrated its dealings with Moscow on just that issue.

olution, had it been approved by the Salem council, would have committed the local council to participation in Project 31, the plan by which councils in Columbiana, Mahoning and Trumbull Counties would merge.

Draft New Resolution

Members of the board of directors here, feeling that they could not commit themselves to the merger, had a new resolution prepared with the advice and assistance of the council's attorney, Alfred Fitch. The new resolution states that the Salem council will not be bound in any way until all the plans of the organization committee for the proposed council are approved locally. By unanimous vote, the new resolution was approved here last month.

On Oct. 31, representatives to the organization committee from the councils and lone troop areas in Project 31 met with regional professional and volunteer staff members in Warren. A poll was taken of those present to determine their attitudes concerning the proposed area council.

Youngstown's representatives were satisfied with the plan as proposed. However, Youngstown which is to be considered the center of the area, will not be losing its identity, local leaders point out.

Called "Not Workable"

Representatives of other councils expressed a willingness to investigate the possibilities of the proposed area council, but reaffirmed their belief that the area would be too large. Many restated their desire to remain autonomous. According to regional personnel, the resolution submitted by Salem is "not workable."

Declared Mrs. Zeigler: "How ironic that an organization which has done so much to foster democratic ideals now is about to be drastically changed in an undemocratic fashion!"

Both Mrs. Zeigler and Mrs. Cosma, apparently speaking for many in Salem, contend that if National had presented the merger plan openly and honestly from the beginning and given the local board members a clear understanding of the proposal, the Salem women wouldn't be fighting the plan so vehemently.

"We have had no voice in the matter," Mrs. Cosma points out. She declares further: "Undoubtedly the mass merger plan has merits, perhaps chief of which is more uniform services to the Girl Scout."

"Harm Outweighs Good" "Yet I am convinced that the harm done to the Girl Scout personally will greatly outweigh the good."

"It's gotten to the point where young girls are just to be part of a corporation. Administration seems to be more important than the girls themselves."

"Girl Scouting is taking on the aspects of big business — and what is colder or more impersonal than big business?" she concluded.

Teachers Told Most Learning Occurs Outside Of School

By G. K. HODENFIELD
AP Education Writer

MIAMI BEACH, Fla. (AP) — High school English teachers were asked today to face up to the fact that "in our cities, most learning occurs outside the classroom."

William D. Boutwell told a convention meeting of the National Council of Teachers of English:

"The sheer quantity of information conveyed by the press, magazines, films, television and radio far exceeds the quantity of information conveyed by school instruction and texts."

"This challenge has destroyed the monopoly of the book as a teaching aid and cracked the very walls of the classroom."

Boutwell was reviewing a new book, "Using Mass Media in the Schools," which the council sponsored and of which he was editor.

He told the English teachers they have a deep responsibility for what he called "adventuring into mass media." He cited a recent report that the average American is exposed every day to at least 1,500 invitations to buy something or do something.

He also said that "television films, and even literature will never rise higher than the standards set for them by audiences. And who is in the most strategic spot to create discriminating audiences? Teachers, of course."

"It is in your hands to fashion the audiences that will compel mass media to rise to ever higher standards of performance."

Boutwell also cited research by Prof. Wilbur Schramm of Stanford University, who found that of children who reach the seventh grade, 44 per cent have become newspaper readers, 73 per cent have become regular book readers, 70 per cent attend movies, 61 per cent read comics, 53 per cent read magazines and listen to the radio and 94 per cent are inveterate viewers of television.

the hoodlum element in their community."

He promised "prompt prosecution" if any evidence of federal law violation is uncovered. A federal law enacted last year controls transportation of explosives across state lines.

The man who touched off the death-dealing bomb when he went to start his 1956 model car Friday was not considered a big man in the underworld.

Cavallaro was involved in the numbers racket, police said. He listed himself variously as an auto salesman and billiards parlor operator.

He had been fighting deportation to Italy since 1935. A series of legal maneuvers held off the Immigration Service more than 20 years, but a deportation order was issued finally six years ago. Cavallaro had been fighting that order in the courts.

He and his two sons got into the car shortly before noon to go for a ride. All three were in the front seat.

The powerful explosion that came when Cavallaro turned on the ignition rocked the North Side neighborhood, wrecked the car and leveled the two-car garage at Cavallaro's home.

The bombing came less than five months after William (Billie) Naples, 35, was killed in similar fashion.

Naples' late brother, S. Joseph (Sandy) Naples, 52, who had been considered a kingpin operator in Youngstown rackets, was gunned down from a passing automobile in 1960. Sandy's girl friend, Mary Ann Vranich, 28, was killed with him.

Another rackets figure, James Vincent DeNiro was killed July 7, 1961, in another bombing. It was only a month earlier that shots from a passing car killed Mike Farah outside his home in Warren in neighboring Trumbull County, where he was reputed to be a rackets czar.

Cuba." In Washington, a State Department spokesman said an additional economic step against Cuba, never executed because the U.S. naval arms quarantine took its place, still was under consideration.

The measure would bar U.S. vessels from going to Cuba and impose penalties on non-U.S. ships bound for Cuba with Communist-bloc cargoes.
